

## Succos in Jerusalem

Adapted & performed by Soulfarm.

Produced, recorded and mixed by C Lanzbom at Sherwood Ridge, NY

Succos in Jerusalem

Everybody builds their Sukkah walls

Little children decorate

Cutouts and pictures large and small.

Palm branches let a bit of light in

When it's dark they even let the night in

Temporary dwellings for you and me

A soul comes down from heaven and goes into the body of a baby

And every footstep that it takes is judged with a yes a no or maybe

Love and faith lets a bit of light in

It's the life we find that's so exciting.

Temporary dwellings for you and me.

Don't we all live in temporary dwellings

Aren't we all visitors, you and me?

In a wink the next world's there to greet us.

And some of us will get there... faithfully
