Todah HaShem

I wanna thank you very much - you're my best friend  
I wanna thank you for today and for tomorrow  
My joy and sorrow all comes from you

Todah HaShem

You're with me from beginning till the end  
The music in my life all comes from you  
I know that's true, I know that's true

The sky, the moon, the stars created by your hand  
You made this universe for the sake of man  
I'm in my little life as a part of your plan  
I'll try the best I can, the best I can

Todah HaShem

For the many blessings you forever send  
For the beauty in this world without end  
Todah HaShem, Todah HaShem

Solo...

Todah HaShem

For the many blessings you forever send  
For the beauty in this world without end  
Todah HaShem, Todah HaShem
